

# HTML/QA Engineer

(job ID: #1001-cf)

Status: Full time contract to hire

Compensation: Based on experience

ColdData, LLC is an online interactive agency dedicated to providing a full range of quality online solutions to healthcare companies. The main office is located in Calabasas, California.

## Description

The first function involves coding and/or programming support. The second responsibility is quality assurance (QA). His/her third responsibility is creating graphics. The specifics of these tasks are presented below:

- I. HTML Coding/Programming  
Supporting the Internet Development team will be the primary focus of this position. This includes assisting with coding and formatting in HTML, Flash, and JavaScript (depending on the software's platform).
- II. Graphics  
Assistance with the creation and design of web graphics.
- III. Quality Assurance (QA)  
Once an entire asset is complete or an entire project has reached the point of being pushed to the live environment, the candidate will help to ensure that the component or assets function properly in various web browsers and OS platforms.  
  
Proofreading may also be part of the intern's responsibility.
- IV. New Initiatives  
Part of every job at ColdData is a challenge. These new initiatives allow for the growth of the individual as we continually seek out ways to improve our business. While this is, of course, one of the primary facets of parts I, II, and III above, this will not only be limited to operational issues, but also involve researching ways to improve our processes and products.

## Qualifications

- Bachelors Degree in related field or 2+ years of web development experience with a solid understanding of web navigation and user habits as well as the ability to analyze and understand statistical reporting.
- Working knowledge of HTML/CSS, JavaScript
- Knowledge of DreamWeaver and Adobe Image editing tools (Photoshop, Image Ready, Acrobat, etc.)
- Experience in behavioral testing methodologies as applied to web sites
- Well developed communication skills - oral, written, listening. Good analytical and negotiation skills, and very close attention to detail.
- Experience in healthcare industry is a PLUS
- **No H1 VISA sponsorship** at this point – local hires only. All non-qualified applications are discarded immediately.
